

Stop the War Coalition

Hands Off Syria!

November 2015

The government is fixated on getting a vote to bomb Syria. Over the last few months Cameron keeps calling for further intervention in the “war” in Syria using bombers. This “war” has been caused by the Anglo-US-Israeli and Saudi interventions in the middle east in the first place and the arming of proxies to overthrow secular states to suit their global ambitions. They have created this anarchy and violence so that they certainly can’t sort it out by illegal intervention which does not have the backing of the Syrian government or the UN.

There was a vote against the government’s bombing plans at the recent Labour Party conference and Jeremy Corbyn has a long record of opposition to foreign wars. So lets bring about an anti-war government in Britain!

Newcastle Stop the War Coalition will be lobbying Shadow Attorney General Catherine McKinnell MP at 12 noon on Friday 6th November to ask her to support Labour policy. JOIN US THERE.

And please lobby YOUR MP using this link - it only takes 2 minutes!
