

Stop the Bombing of Iraq Don't Attack Syria!

Public Meeting

Speakers:

Andrew Murray, Vice President Stop the War Coalition
Clare Willams, Unison Regional Convener
Rev Andii Bowsher, co-Chair of Martin Luther King Peace
Committee and chaplain at Northumbria University
Abu-Tayeb, Islamic Diversity Centre
Thursday October 9, 2014 6.00pm
Newcastle City Library, 33 New Bridge Street

Following the vote in Parliament backing David Cameron, Britain has started to bomb Iraq. Cameron has already let the cat out of the bag that this is not only about the brutal activities of ISIL when he said “this mission will take not just months, but years”, and that it was also to “achieve a political transition in Syria.”

The supply of Western military equipment and the funding for armed groups like ISIL must be stopped so that the people and countries of Middle East can resolve these conflicts themselves without interference from the big powers.

Join us and take a stand against the bombing of Iraq, the threat of the UK extending air strikes to Syria, and against any further open and covert military operations in these countries with troops, or other forces. Britain needs an anti-war government.
