TRADE UNIONIST AND  
SOCIALIST COALITION

Your Candidate:

## **Elaine Brunskill**

### **For a workers' MP on a worker's wage**

"I have lived in Gateshead all my life and have been involved in many campaigns over the years. I was heavily involved in the defeat of Thatcher's hated Poll Tax, and campaigned against: school closures, cuts, redundancies and youth unemployment, domestic violence and racism. Most recently, I was part of the campaign to Keep the Metro Public. I consider the privatisation of the running of the Metro to be a disgrace. I will continue to campaign for a publicly-owned and run, integrated transport system that includes: the Metro, the mainline rail system and the buses. I fully support the RMT in its campaign to put Safety and Service before Profit. I am standing for election to represent the interests of all those people who are being forced to pay the price for this economic crisis, whether directly or indirectly. It's a crisis not of our making. It's a crisis of the bosses system and they should be paying the bill. Not us. I am a member of the Socialist Party and I pledge to accept as an MP the average wage of a skilled worker."

## **Trade Unionist and Socialist Coalition - the only alternative**

"Labour has failed to defend working class people, spending more time, energy and our money, bailing out the bankers and millionaire bosses. Labour has implemented cuts and privatisations in our services as well as the Tories and LibDems. The BNP are no alternative. BNP councillors have a track record of failing to stand up against cuts in services, either voting with the cuts budgets of the establishment parties or just not turning up. Vote for a real alternative."
